RE: Marion/Bragg Landfill Draft Fact Sheet

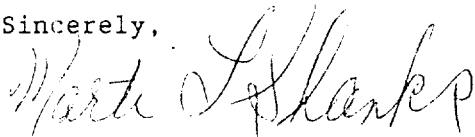

Dear Art:

Enclosed please find a copy of the draft fact sheet for Marion Bragg Landfill Site, announcing the signing of the Consent Decree, for your review.

As soon as you know when the signing will actually occur, we need to plan the timing of the production of the final fact sheet, newspaper ad, public comment period and availability session. I have left those portions of the blank for your input. Also needed is an address for the Department of Justice for submittal of comments (unless you are going to have them come to you and forward them).

Should you have any questions, please call. Within a few days, I will submit drafts of the graphics to be used in the fact sheet for your review.

Sincerely,

Marti L. Shanks  
Community Relations Specialist
